Muhammed Dilshad Tk

React Developer

diludilshazz42@gmail.com 8714097500 Malappuram,kerala LinkedIn GitHub

PROFILE

React Developer skilled in building **fast, responsive, and scalable** web applications using **React.js, Next.js, and TypeScript**. Experienced in **Redux Toolkit** for state management and **Tailwind CSS** for modern UI design. Proficient in **API integration, authentication, and performance optimization**. Passionate about creating clean, dynamic, and maintainable interfaces, and eager to contribute to impactful projects in a collaborative environment.

PROFESSIONAL EXPERIENCE

Intern – Bridgeon Solutions

- Engineered responsive, user-friendly web interfaces using **React, Next.js, TypeScript, Redux Toolkit, and Tailwind CSS**, integrating seamlessly with RESTful APIs.
- Developed backend features with **Node.js, Express.js, and MongoDB**, ensuring clean architecture and efficient data flow across the stack.
- Implemented **real-time features** with Socket.IO and secure authentication using **JWT and cookies**, and integrated services like **Cloudinary** and **Razorpay**.
- Improved **UI/UX** with creative layouts, including masonry grids, dropdowns, tabs, and dashboards—ensuring cross-device compatibility and faster load times.
- Collaborated across technologies using REST APIs and Axios while maintaining **clean code, reusable components**, and modern **frontend standards** aligned with MERN and Next.js principles

SKILLS

Programming Languages: JavaScript, TypeScript
Web Technologies: HTML, CSS, MongoDB
Libraries & Frameworks: React, Next.js, Redux Toolkit, Node.js, Express.js, Tailwind CSS, Bootstrap
Tools & Platforms: Git, GitHub Actions, Vercel, Render, Postman, Cloudinary, Razorpay, Stripe
Design & Prototyping: Figma
Concepts: Clean Architecture, MVC Pattern, Agile Methodologies

PROJECTS

Pexels-Inspired Media Platform
React.js | Redux Toolkit | Tailwind CSS | Cloudinary
- Built a **Pexels-style media sharing app** featuring image and video uploads, drag-and-drop interface, and real-time preview.
- Designed a **custom masonry layout** with category filters, titles, and descriptions for a visually dynamic experience.
- Integrated **authentication, user profiles, protected routes**, and tab-based navigation (Gallery, Highlights, Collections).
- Used **Redux Toolkit** for global state management with instant updates for uploads, follows, and leaderboard ranking.
- Enhanced app performance using **Cloudinary optimization**, a responsive navbar, dropdowns, and smooth Tailwind animations.

SkillMentorX Platform
Next.js | TypeScript | Express.js | Redux | MongoDB | Tailwind CSS
- Developed an **AI-powered mentor-student web app** supporting real-time communication, scheduling, and progress tracking.
- Designed a **modern, mobile-friendly UI** using Tailwind CSS and Framer Motion for smooth animations and consistency.
- Created **modular components** for dashboards, chat interfaces, and profiles with efficient state management via Redux.
- Integrated **secure forms and APIs** using React Hook Form, Axios, and Express for mentor registration and authentication.
- Optimized SEO and performance using **Next.js SSR & SSG**, ensuring scalability and clean architectural structure.

Xtract Healthcare – Healthcare Management Platform
Worked on a healthcare management platform designed to streamline and manage healthcare-related workflows. Developed and maintained responsive React.js interfaces for managing users,partner,facility, payers, payees, clients, projects, reports, and operational processes.
Key Contributions:
- Developed and enhanced user-friendly interfaces using **React.js, JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS**.
- Implemented **user assignment functionality** for tickets and subtasks.
- Worked on **Payer/Payee Management, Lockbox, Process Queue, Reports, and Dashboard modules**.
- Integrated frontend applications with **REST APIs** using Axios and handled API responses and error scenarios.
- Implemented **search, filtering, sorting, pagination, date-range filtering, export, and data table functionalities**.
- Developed and maintained reusable React components and improved existing UI/UX.
- Implemented **permission-based UI functionality**, status handling, validation, modals, alerts, and confirmation flows.
- Worked with **Redux Toolkit** for state management where required.
- Fixed UI issues, API integration issues, and improved application performance and usability.
- Collaborated with the team to implement new features, resolve bugs, and deliver enhancements based on project requirements.
